

**Materials Science and Technology ('the Journal')**

In order for Maney Publishing ('the Publisher') to ensure the widest possible dissemination and protection of material published in the Journal, we request authors to assign worldwide copyright in print, digital and other media in their papers, including abstracts, to The Institute of Materials, Minerals and Mining. This enables us to ensure maximum international copyright protection against infringement, and to disseminate your article, and the Journal, to the widest possible worldwide readership. Should the article be rejected from the Journal for any reason, all rights assigned within this document revert back to the author(s) of the article. Please read the explanatory notes of this agreement on the following page.

1. In consideration of the undertaking set out in paragraph 2, the Author(s) as beneficial owner(s) hereby assign(s) to The Institute of Materials, Minerals and Mining all rights, title and interest in the copyright throughout the world in the article named below (**which shall be taken to include any or all supplementary material associated with the article***) for the full legal term of copyright.

Article title: *Model for multiple martensitic transformations, microstructural entropy and consequences on steel properties*

Name(s) of Author(s): *H K D H. BHADSHIA, S. KUNDU, A. CHINTHA*

Manuscript no./ref. *MST-S-13-00290*

If this paper is sponsored for Open Access by your grant funders, follow the MORE OpenChoice route by signing and returning this copyright assignment to the address below, and find details of the policy and how to make payment at www.maneypublishing.com/moreopenchoice/info.

So that there should be no doubt, it is understood and agreed that this assignment includes the right to publish or adapt (subject to paragraphs 3 and 4) the material in the article for use in conjunction with computer systems, including networks; the article may be published in printed, CD-ROM, microfiche, on-line, or other machine-readable form or in any other format or medium (electronic or otherwise) approved by The Institute of Materials, Minerals and Mining.

2. Maney Publishing, as the Journal's publisher, hereby undertakes to prepare for publication and publish in the Journal, the Article named in paragraph 1.
3. The Editor of the Journal, and the Publisher, are empowered to make such editorial changes as may be necessary to make the Article suitable for publication. Every effort will be made to consult the Author(s) if substantive changes are required.
4. The Author(s) hereby assert(s) their moral rights under the terms of the Copyright Designs and Patents Act 1988 to be identified as the Author(s) of the Article.
5. The Author(s) warrant(s) that the Article is the Author(s)' original work, has not been published before, either in part or whole, and is not currently under consideration for publication elsewhere. The Author(s) also warrant(s) that (a) the Article contains no libellous or unlawful statements, (b) it in no way infringes the rights of others (including the holders of copyright in material used within the Article), (c) that permission has been obtained to reproduce any material or illustrations for which they do not hold copyright, and that (d) the Author(s), as the owners of the copyright, is (are) entitled to make the assignment set out in this agreement. The Author(s) hereby indemnifies/indemnify the Institute of Materials, Minerals and Mining and the Publisher against any claims for breach of the warranties given above.
6. In cases where the article is a translation of a previously published article, the Author(s) warrant(s) that full permission has been obtained to carry out and publish the translation of the article from its original language, and that it in no way infringes the rights of others (including the holders of copyright in material used within the original Article).
7. The author warrants that the article contains no plagiarised material and agrees that the article may be checked for plagiarism and other ethical questions (including checks carried out using by automated software packages). The Publisher reserves the right to withdraw or retract any article for which, in its reasonable opinion, valid concerns exist over the originality of the article or its compliance with the journal's ethical policy. Maney's plagiarism and ethical policy may be read in full at www.maneypublishing.com/publishingethics.

*If the author(s) cannot assign copyright for any or all the supplementary material, the clause in parentheses should be struck out and a licence to publish provided for this material. If copyright is held by a third party, permission to reproduce this material must be obtained from the copyright holder as laid out in paragraph 5 of this form and submitted to the publisher.

Copyright Assignment

I hereby sign this Assignment of Copyright with the full knowledge and agreement of all Authors named above in 1.
